INTERNAL CONTROL AND Vodafone Qatar has an established business **RISK MANAGEMENT**

7.1 Internal Control Processes

The Board assumes overall responsibility for internal risk management and control processes. Based on the efficacy evaluation of the design, implementation, and operational effectiveness of ICOFR, management did not identify any material weaknesses and concluded that ICOFR is appropriately and effectively designed, implemented, and operated as of 31 December

In addition, Vodafone Qatar's External Auditors carried out a reasonable assurance engagement over Board of Directors' description of the processes and internal controls and assessment of the suitability of the design, implementation and (c) operational effectiveness of the Group's ICOFR as at 31 December 2023 (the "Statement") to ensure (d) compliance with Article (24) of the QFMA Corporate Governance Code.

resilience framework that addresses and mitigates the risk of the business being unable to resume its operational activities within a reasonable time following the occurrence of any events leading to business interruption. The Company has established a dedicated Business Continuity Management ("BCM") Steering Committee comprised of Executive Committee Members who meets on a bi-annual basis to review the BCM Program implementation, maintenance and improvement. The scope of the BCM Steering Committee and its main areas of responsibility are as follows:

- Ensure compliance with the BCM policy and its procedures;
- Approve BCM procedures and all related processes, rules and documents:
- Monitor continuous improvement of the BCM program and procedures;
- Ensure that all members of the business are aware of their responsibilities related to BCM;

7.4 Enterprise Risk Management

Vodafone Qatar operates a comprehensive ongoing risk management and assessment programme within the business. The primary objectives are to generate balance between the risks that the business takes with its potential rewards, support the achievement of corporate strategy and anticipate future threats. The Company believes that a vigilant and robust approach to risk management enables informed decision making, provides senior management with appropriate visibility of relevant business risks, defines the level of risk the Company is willing to take and facilitates risk-based assurance activity. On an annual basis, the risk management function reports to the Audit Committee on the top ten (10) enterprise risks that the Company believes would have the greatest impact on the Company's strategic objectives, operating model, viability or reputation. These risks, plus relevant mitigating actions, are catalogued and tracked in the Company's Risk Register and are then subject to additional reporting, oversight and assurance on an ongoing basis.

Vodafone Qatar notes that Article (22) of the QFMA Corporate Governance Code requires Internal Audit to submit a report every three (3) months to the Audit Committee. Vodafone Qatar is compliant with these requirements as the audit committee meets 6 times a year.

> Article (21) of the QFMA Corporate Governance Code prescribes that a company's Internal Audit function should be independent from the dayto-day functioning of the company. The Board considers the Internal Audit Department as being independent from Vodafone Qatar. This independence is reinforced by the reporting line of the Internal Audit function into of the Audit Committee and a secondary reporting line to the Chief Executive Officer of the Company.

7.6 External Auditor

The decision to appoint the External Auditors including a review of the External Auditor's remuneration is made at the AGA by the shareholders. The External Auditors attend the AGA to present their report and to answer queries from shareholders.

The purpose of appointing an External Auditor is to provide objective assurance to the Board and shareholders that the financial statements have been prepared in accordance with all related laws, regulations and IFRS and that they fairly represent the financial position and performance of the Company in all material aspects.

KPMG currently holds the position of Vodafone Qatar's External Auditors and they conduct a full audit at the end of the Company's financial year in addition to a review of the Company's halfyear results. Article (23) of the QFMA Corporate Governance Code provides that External Auditors shall be appointed by the General Assembly each year which may be renewed for one or more terms provided this does not exceed five years which is in line with Article (141) of the Commercial Companies Law. Vodafone Qatar's Articles of Association (Article 66) are aligned to the Commercial Companies Law and state that an auditor can be appointed for a period not exceeding five consecutive years.

The decision to re-appoint KPMG as the External Auditors of Vodafone Qatar and to fix their fees was approved by the shareholders of the Company at the AGA which took place on 20 February 2023. During the financial year 2023, the Audit Committee and the Board approved additional fees for the external auditors, arising from additional and mandatory audit beyond the initially defined scope of work. This expanded audit scope primarily pertained to the acquisition of a new company during the year stipulated by the Qatar Central Bank.

For more details, please refer to Note 7 of the Company's financial statements as of December 31st 2023, which are also included in the Vodafone Qatar Annual Report.

DIRECTORS' ASSESSMENT OF • INTERNAL CONTROLS OVER FINANCIAL REPORTING (ICOFR)

General

The Board of Directors of Vodafone Qatar P.Q.S.C. (the "Company") and its consolidated subsidiaries (together "the Group") is responsible for establishing and maintaining ade quate internal control over financial reporting ("ICOFR") as required by Qatar Financial Markets Authority ("QFMA"). Our internal control over financial reporting is a process de signed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the Group's consolidated financial However, any internal control system, including statements for external reporting purposes in ICOFR, no matter how well designed and operated, accordance with International Financial Reporting can provide only reasonable, but not absolute Standards (IFRS). ICOFR also includes our disclosure assurance that the objectives of that control controls and procedures designed to prevent system are met. As such, disclosure controls and misstatements.

Risks in Financial Reporting

The main risks in financial reporting are that either the consolidated financial statements are not presented fairly due to inad¬vertent or intentional errors or the publication of consolidated financial statements is not done on a timely basis. A lack Functions Involved in the System of Internal of fair presentation arises when one or more Controls over Financial Reporting financial statement accounts or disclosures contain misstatements (or omissions) that are material. Misstatements are deemed material if they could, individually or collectively, influence economic decisions that users make on the basis of the and records that underlie the consolidated financial consolidated financial statements.

To confine those risks of financial reporting, the organization. Group has established ICOFR with the aim of provid¬ing reasonable but not absolute assurance against material misstatements. We have also assessed the design, implementation and operating effectiveness of the Group's ICOFR based on the criteria established in Internal Control Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). COSO recommends the establishment of specific objectives to facilitate the design and evaluate the adequacy of a • control system. As a result, in establishing ICOFR, management has adopted the following financial statement objectives:

- Existence / Occurrence assets and liabilities exist and transactions have occurred;
- Completeness all transactions are recorded, account balances are included in the consolidated financial statements:
- Valuation / Measurement assets, liabilities and transactions are recorded in the financial reports at the appropriate amounts;
- Rights and Obligations and ownership rights and obligations are appropriately recorded as assets and liabilities; and
- Presentation and disclosures classification, disclosure and presentation of financial reporting is appropriate.

procedures or systems for ICOFR may not prevent all errors and fraud. Furthermore, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs.

Organization of the Internal Control System

Controls within the system of ICOFR are performed by all business and support functions with an involvement in reviewing the reliability of the books statements. As a result, the operation of ICOFR involves staff based in various functions across the

Controls to Minimize the Risk of Financial **Reporting Misstatement**

The system of ICOFR consists of a large number of internal controls and procedures aimed at minimizing the risk of misstatement of the consolidated financial statements. Such controls are integrated into the operating process and include those which:

- are ongoing or permanent in nature such as supervision within written policies and procedures or segregation of duties;
- operate on a periodic basis such as those

which are performed as part of the annual form an important component of the evaluation process;

- are preventative or detective in nature;
- have a direct or indirect impact on the The evaluation has included an assessment consolidated financial themselves. Controls which have an indirect effect on the consolidated financial statements include Control Environment, Risk Assessment, Monitoring, and Information and Communication (CERAMIC) controls and Information Technology general controls such as system access and deployment controls supports a balance sheet line item; and
- feature automated and/or manual components. Automated controls are control functions embedded within system processes such as application enforced segregation of duty controls and interface checks over the completeness and accuracy of inputs. Manual internal controls are those operated by an individual or group of individuals such as authorization of transactions.

Measuring Design, Implementation and **Operating Effectiveness of Internal Controls**

For the financial year 2023, the Group has undertaken a formal evaluation of the adequacy of the design, implementation and operating effectiveness of the system of ICOFR considering:

- The risk of misstatement of the consolidated financial statement line items, considering such factors as materiality and the susceptibility of the financial statement item to misstatement; and
- The susceptibility of identified controls to failure, considering such factors as the degree of automation, complexity, and risk of management override, competence of personnel and the level of judgment required.

These factors, in aggregate, determine the nature, timing and extent of evidence that the management requires in order to assess whether the design, implementation and operating effectiveness of the system of ICOFR is effective. The evidence itself is generated from pro¬cedures integrated within the daily responsibilities of staff or from procedures implemented specifically for purposes of the ICOFR evaluation.
